| 2 | Clothing Computer/ Software |  | 75,000 |
|  |  |  |  |

## Quantity should not be left blank

Extremely important! Packing list must either be typed or written in clear readable handwriting -Clear and readable enough for Japanese customs officer whose native language is not English. To put it another way, it is normally has to be typed but it can be a handwritten one if it is clear and readable.
Packing list with values declared in JYP is preferred but USD, CAD, AUD, NZD, GBP, Euro are also acceptable. (No other currency) Use one currency only. (Do not declare, for example, some in JPY and the rest in USD)
